- Project Work to teach you everything you need to know to get started with HTML5 and CSS3
- Learn web designing complete from scratch to a fully functional and optimized website
- Simple-to-use web design guidelines and tips to make your website stand out from the crowd

Course Description:

Our HTML5 & CSS training course will help students to learn the skills necessary to become a HTML5 & CSS expert. After completing the course, you will be able to design web pages for both static and dynamic websites with latest technologies.

Our HTML5 & CSS Course at Croma Campus is designed as per the Industrial trends with 100% Job Assistance. We have a team of highly experienced professionals' faculties with more than 12 years of experience in Web Designing and other related Technologies.

Our faculty members are fully aware of industry requirements and ready to deliver full-fledged and industrial based HTML5 & CSS Training to students across India. We provide our students with a perfect platform to learn and explore the subject from corporate trainers & industry experts.

Course Highlights:

Croma Campus offers a wide range of courses to bring you up to speed on the latest trends and tools for the best web design. From Photoshop to UX design, Croma Campus has a web design course to help you get the most out of a website's front end.

In this training program, we will cover the below topics:

- **HTML:** HTML is the standard markup language for Web pages. With HTML you can create your own Website
- **CSS 2.0 and 3.0 (Cascading Style Sheets):** CSS is the language we use to style an HTML document. CSS describes how HTML elements should be displayed.
- **HTML 5:** HTML5 is a markup language used for structuring and presenting content on the World Wide Web. It is the fifth and latest major version of HTML that is a World Wide Web Consortium recommendation
